Subject: I want to be able to use Netscape Navigatorlike I have been all along.

I logged onto Prodigy just like I always have and the display was not at all like I have gotten before.

When I try to look at my portfolio, which has always worked, it is not there

In both cases, I get a message telling me I must update my MS browser, which I have never used.

I do not want to use the MS browser, I want to use my Netscape browser.

Here is more detail on the questions above: Windows 95 4.0 (Build 1212)

=====

The terrorists who attacked the United States on September 11 aimed at one nation but wounded the world... But if the world can show that it will carry on, that it will persevere in creating a stronger, more just, more benevolent and more genuine international community across all lines of religion and race, then terrorism will have failed.

-- Kofi Annan
Secretary General of the UN

and Winner of the Nobel Peace Prize for 2001
